## Million Shares Change Hands in Stock Market.

## NEW HIGH RECORD IS MADE

Bonds Traded in on Exchange Amount to \$3,750,000, While Activity in Stocks Encourages Those Working for Higher Prices—Steel Common Is Leader in Busy Day.

New York, Oct. 14.—Almost a million shares changed hands in the stock market to-day, and bonds traded in on the stock exchange amount to about \$3,750,000. In point of activity both departments of the security market thus made, as they did yesterday, new high records for the period since the last week of July. In stocks the strength was so impressive as to cause the activity, and the broad range of the market was especially encouraging to those working for higher prices.

Steel common stock was easily the leader in the market, the turnover in this stock aggregating a quarter of a million shares, and the stock scoring a net advance of 24 points on the day's operations. Its activity and strength were all the more a subject of comment because since the publication of the statement of unfilled orders on Monday the stock has scored a gross gain of 6 points. On its surface the statement showed business at a low mark, but obviously it has been widely appreciated that the business of the company was and is better than surface indications disposed many speculators to believe.

Paucity of orders from the railroad companies which normally at this season have their rail orders for the following year prepared and submitted to the market, the principal cause for Monday's poor showing and developments at Washington this week have been such as to strengthen the opinion that the railroads will be permitted to raise rates. Following the admirable presentation of the railroad argument by President McCrea, the testimony by President Brown, of the New York Central, and President Willard, of the Baltimore and Ohio, both of whom strongly supported Mr. McCrea's position.

Effect of Rate Hearing. Assurances of increased rates means, of course, an extraordinary abundance of orders from the railroad companies, for they have done practically nothing in the purchase of materials from the steel companies since the controversy over increases in railroad rates became acute. In connection with the intense speculation in the steel shares to-day, it was also suggested that a group of wealthy speculators making a different construction of the conditions in the trade and its prospects, had become heavily extended on the short side of the market, and either obstinately refused to cover short contracts, or was impelled to buy in at advancing prices.

The announcement that American and foreign banks had practically agreed upon a settlement of the long controversy over cotton bills of lading contributed to the improvement in sentiment. The matter is so arranged that no inconvenience is placed upon local bankers, and that foreign bankers, having a guarantee from a responsible surety company, will not hesitate to accept American bills. It had been expected that an agreement would be reached, but the argument has been so long drawn out that the previous agreement had not much longer to run.

## Call Money Firmer.

Call money was considerably firmer to-day, with 3 1/2 per cent the prevailing rate, and it is expected that the bank statement will show a considerable decrease in the surplus reserve, which, at the end of last week, was only a little over \$7,000,000. The banks have lost nearly \$7,000,000 on operations with the subtreasury, and unless there has been another heavy shifting of loans from the banks to other financial institutions, the bank statement will probably be unfavorable. In addition to the shipments to the interior and demands imposed by greatly increased activity in the stock market, the heavy movement of money have been complicated by preparations for rather heavy interest and dividend disbursements to-morrow. The weekly trade reports showed a considerable improvement in general trade. In the textile trade and in most other lines stocks are low and the situation is strong because confidence continues to increase.

## NEW YORK MONEY.

New York, Oct. 14.—Time money: For sixty days, 4 1/2 per cent; for ninety days, 4 3/4 per cent; for four months, 4 3/4 per cent; for five months, 4 3/4 per cent; for six months, 4 3/4 per cent. Same-day money: 3 1/2 per cent.
